

Joyful and affirming care, for all.

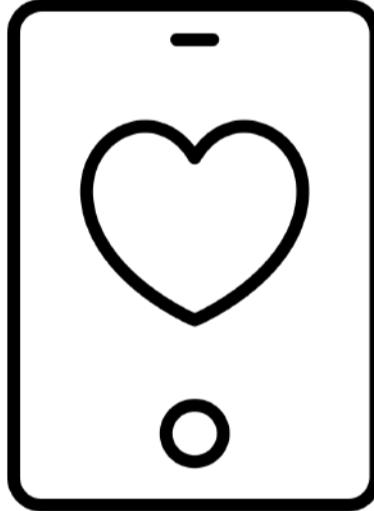

FOLX Health offers a comprehensive range of services, including primary care, mental health care, gender-affirming care, sexual and reproductive health services, fertility consultations, and more, all from the convenience of your home, and in coordination with your employer's insurance plan.

With a diverse network of LGBTQIA+ expert clinicians, FOLX ensures inclusive care for all members of the community ages 18+, as well as resources and support for allies, partners, parents and/or anyone else looking to support the needs of the LGBTQIA+ community.

FOLX also offers a nationwide referral network, navigation support, a community platform which gives access to health education, community resources, support groups, live events, DEI trainings, and more.
